## A quick guide to Uber

Here's how the Uber app and Uber.com connect drivers and riders on demand, step by step:

### 1. Getting started

The rider enters their destination into the “Where to?” or “Dropoff location” box, reviews each ride option,

makes their selection, and confirms the pickup.

## 2. Matching rider and driver

A nearby driver accepts the rider's ride request. The rider is automatically notified as the driver gets close.

## 3. Picking up

The driver and the rider verify each other's names and the destination. Then the driver starts the ride.

#### 4. Taking the trip

The app gives the driver the option to access turn-by-turn directions.

#### 5. Leaving ratings and reviews

At the end of each trip, drivers and riders can rate each other from 1 to 5 stars. Riders also have the option to tip directly in the app or online. And in some countries, riders can choose to give their driver compliments.

## Suggestions

## Courier

Uber makes same-day item delivery easier than ever.

Details

## Food

Order delivery from local restaurants with Uber Eats.

Details

## Grocery

Get groceries delivered to your door with Uber Eats.

Details

## Request a ride online

You can find a ride online without needing the app. Simply head to the [Uber website](#), and you're ready to enjoy the convenience of requesting from your computer or tablet.
